EXPERIENCE

Founder & Full-Stack Developer | Orixai | 2026-Present | Remote

- Built and launched an AI-assisted SaaS that helps users turn resume and profile information into published portfolio websites.
- Developed the production application with Next.js App Router, TypeScript, Supabase Auth/PostgreSQL, Drizzle ORM, and Zod validation.
- Implemented onboarding, portfolio creation and customization, public publishing, analytics, contact messaging, premium templates, custom-domain support, and referral workflows.
- Integrated LLM APIs into content-generation workflows and managed product engineering, deployment, debugging, and performance improvements.

Full-Stack Developer - Independent Projects | Self-Directed / Freelance | Aug 2024-Present | Remote

- Designed and shipped full-stack applications with authentication, REST APIs, real-time features, and AI-enabled workflows using modern JavaScript technologies.
- Handled end-to-end delivery across database modeling, backend services, frontend integration, and deployment on Vercel and Railway.

Full-Stack Developer Intern | Softechgenics | Apr 2024-Jul 2024 | Bahawalpur, Pakistan

- Contributed to MERN and TypeScript web applications, supporting REST API development and frontend/backend integration under engineering guidance.
- Implemented JWT access/refresh token authentication and bcrypt password hashing; collaborated using Git, GitHub, and code-review workflows.

SELECTED PROJECTS

Volox - Real-Time Chat Application | React, Node.js, Socket.IO, MongoDB, Cloudinary

- Built public chat rooms and private messaging with real-time message delivery, online/offline presence, typing indicators, and media/document sharing.

Flow Finance AI - AI-Powered Finance Tracker | React, Node.js, Prisma, PostgreSQL, LLM APIs, Recharts

- Developed authenticated expense tracking and analytics dashboards, plus an LLM-powered assistant for contextual budget insights and financial Q&A.

SoundWave - Music Streaming Platform | React, Node.js, MongoDB, Cloudinary

- Implemented listener/artist role-based workflows, stream-duration tracking for play metrics, and social engagement features for follows and likes.

E-Commerce Platform | Next.js, TypeScript, Redux Toolkit, TanStack Query

- Created an SEO-oriented storefront using server-side/static rendering, server-state caching, persistent cart management, and wishlist functionality.
